

Walk-in Clinic

Recommencing from Monday 2 May 2022

For current patients of BVMP only

How it works:

- Please take a numbered card on arrival. Cards are available from 8:30am Mon – Fri
- Clinic patients must present to Reception at 9:00am when doors open
- You cannot request a particular doctor and patients are seen in order of arrival
- Medical emergencies and children will be given preference and seen first
- Appointments are 5 mins only and for one acute medical condition requiring treatment that day
- Clinic appointments are NOT for on-going problems or for completing paperwork
- If you need a longer appointment, please see Reception to book a more appropriate time
- Narcotic medications will not be prescribed during the walk-in clinic. These scripts require a booked appointment with your regular GP.

If you have cold/flu symptoms you will be asked to wait outside or in your car.
